Belgrade, Serbia

Education

B.Sc. in Computer Science

University of Belgrade, Faculty of Mathematics, Department of Informatics

Graduated: October 2025

Projects

Online Portfolio – Personal portfolio website showcasing selected finished projects including web applications, games, algorithms, and formal verification work.

Work Experience

Freelance Software Developer – 8 months

- Developed a full-stack logistics management web application using C#, .NET, MySQL, and Angular
- Implemented backend APIs, core business logic, and frontend modules
- Worked collaboratively in a small team from development to delivery

Technical Support Administrator – Ministry of Culture (Current position)

- Assisting with digitalization initiatives and basic server and software administration
- Providing technical support and maintenance for internal systems and user environments

Hackathons

Blokejd GameJam – 2025, Serbia (1st place)

- Led a 4-person team developing “Chessception”, an Android chess-inspired game
- Designed and implemented core gameplay mechanics using Godot Engine
- Presented the final project and won first place in a competitive 30-hour game jam

LauzHack – 2025, EPFL, Switzerland

- Developed a web application for patent similarity detection using semantic text analysis
- Implemented comparison logic and an AI chatbot to assist with patent exploration
